

COUNTRY *Chicken*

Why Chicken?

COUNTRY Chicken

Why a Chicken Franchise?

REPEAT BUSINESS

Food is an essential part of living-we cannot live without it.

Chicken is an excellent source of protein without the high degree of saturated fat found in beef, pork and lamb. It is also a relatively inexpensive source of protein when compared with animal products.

Why Country Chicken ?

It is readily available and is produced in controlled environments. It is always cooked by **COUNTRY Chicken** at temperatures which ensure there are no dangerous organisms present.

The **UNIQUE** taste of **COUNTRY chicken** is what brings people back-repeat custom is the key to any business and a **COUNTRY Chicken** Franchise achieves this.

There are no religious or ethnic issues with chicken – it is consumed around the world by all sectors of society which means a wide appeal to the public.

We all love fried food but **COUNTRY Chicken** is cooked in the very best quality non cholesterol oil which has a long life and because of the **COUNTRY** cooking process the end product does not become “oily” or “greasy”. We do not cook in saturated fats.

We always hear “*its so much better than...*”

Our systems are designed to be user friendly and shop layouts are thought through based on kitchen experience and workflows to minimize labour input.

With a **COUNTRY Chicken** Franchise your customers come back –they are not once only sales.
